SUCCESS STORIES

MICHAEL ASARE

Michael originates from an impoverished background in Ghana, yet has managed to make an impressive impact within a mere month at the Rush Select Academy.

Michael's hard work has earned him a full scholarship to attend Boston College. Where he will receive \$3,000 per semester and 2 paid-for round trip to Ghana to visit his family.

LEVERT ACHU SUH

Levert is from Sunyani, Ghana. He is 16 years old and dreams of one day playing professional soccer.

Levert came to Rush Soccer through our Ghanaian partner and was living in a tough situation. With limited food and resources, but a deep passion for soccer, Levert developed his full potential at the Rush Select Academy. Through our resources we were able to bring him to the US to study and further his soccer opportunities

NAFIU ABDUL MORO & SHARIF MOHAMMED

Brothers from Kumasi, Ghana - Nafiu, and Sharif are inseparable.

Despite growing up without a traditional home, these two players found a sense of family through soccer.

The Rush Select Academy was honored to use its resources to help both of these players come to the United States. Currently, both play in the 1st team, are studying and training to become professionals.

RYAN CORDNER

My experience at the academy has been transformational for me as a player. The training structure is rigorous enough to prepare you physically yet functional enough to prepare yourself mentally so that decision-making on the field progresses from decisions to habits.

Apart from the world-class facilities, what makes Altitude Rush special is the coaching. I must credit Coach Tom Durkin for my development as a player and person. It is because of him that I learned what it takes to succeed at the next level. Coach Durkin's dedication and insight into the game is unlike any coach I have ever played for. You can trust Coach Durkin and the academy to help you reach your goals, whether that be playing collegiately or professionally!

SUCCESS STORIES

PROVIDENCE COLLEGE

JULIAN RESTREPO

Being part of Rush Select Academy was like no other academy experience ever. Rush Select Academy provided me with everything I needed to achieve the next level. With an elite coaching staff, training sessions twice a day, and multiple opportunities to gain exposure through games and showcases I got the experience and recognition necessary to next my next big step. At Rush Select Academy I have met coaches I now see as mentors, teammates who are now brothers, and a facility that I can happily call home. I will be eternally grateful for everything that the academy has taught me as I move forward in the next phase of my career playing for Division I, Providence College in Rhode Island.

FLORIDA ATLANTIC UNIVERSITY

CJ THEODORE

My experience at the academy is something I'll never forget. While at times it may feel overwhelming and be quite tough but in reality, the staff is just preparing you for what's coming. The adversity and the different challenges you will be facing on and off the pitch daily is something that you only understand when you're in that position.

I've been blessed learning and soaking in everything that I've been taught by Tom Durkin and applying it to my game which has really helped. Not only has it improved my SOP, technical ability, and knowledge/ability to read the game.

STETSON UNIVERSITY

XAVI CSATO

Hi, my name is Xavi Csato and I play for Stetson University. I came to the academy my Junior year of high school and lived in Port St Lucie as part of the residency program. I credit my time living at the facilities and playing under coach Tom Durkin and his coaching staff as responsible for preparing me for the demands of playing in college.

Not only did I develop valuable life skills living alone, but the intensity of Coach Tom's trainings as well as his and the other coaches' vast knowledge and experience helped me tailor my game to play at the next level. Through his trainings and teachings, Tom helped me understand the game at a tactical level, understanding not only my role on the field but the roles of those around me.
